展覽內容

蔡長青的布袋戲偶雕刻，以傳統技法出發，從木頭剪形、粗刻、細刻，到上黃土泥水、裱紙，均研究自傳統布袋戲偶頭製法。造型上也是以傳統基本樣式融入新風貌，創造出以古典為師的新創頭偶。

Exhibition Content

Tsay Jaang-jing's hand puppets are carved using traditional techniques. Starting from the initial shaping of the wood, the rough carving, followed by the fine carving, and finally applying the loess mud and mounting paper, all these techniques are developed from traditional hand puppet making methods. In terms of the design, these pieces build upon traditional basic forms mixed with modern styling to create a classically inspired new style of hand puppets.

展出作品為2012年至2019年間的布袋戲偶雕刻。將傳統布袋戲偶造型，用鴨子來做角色變化。從戲偶雕刻的各個步驟過程中的偶頭，來完整了解布袋戲偶的製作方法，紀錄偶頭傳統工法，並創新角色。

The exhibited hand puppet works were carved between 2012 and 2019.

These pieces are based on traditional hand puppet styles, but the heads are carved into various duck shapes, which set them apart from the characters found in traditional puppets.

Following each step in the process of carving these puppet heads visitors can develop a sound understanding of the methods for creating hand puppets. Through this process, Tsay has been able to record and pass down these traditional techniques while also creating new characters.

展品亦包含布袋戲工藝創作品。有個偶、偶衣和戲偶髮飾製作，並透過工藝工坊與雕刻工作室的開放展覽，來認識戲偶工藝製作及偶頭雕刻所需的工具與技法。由不同製作階段的影像紀錄，來呈現作品的成形過程。

The exhibits also include handicraft works created for puppets, such as puppet hats, clothing and hair accessories. Through these open exhibits showcasing the handicraft workshop and carving studio, visitors can learn about the artistry of puppet making and the tools and techniques used in the carving of the puppet heads. The images in the exhibition show the various stages of the process to create these works.
